FOR FURTHER DETAILS

Examinations Rules and Regulations

Examination System:

DIU follows a bi-semester system (spring, fall) for undergraduate and master's programs. Each course is assessed through Class Attendance, Class Tests, Assignments, Presentations, Mid-Term, and Final Examinations. To ensure consistency, all sections of a course follow a common question paper across faculties.

Examination Committee:

Each faculty has an Examination Committee responsible for conducting Mid-Term, Final, and Improvement Examinations. The Vice-Chancellor appoints the Chairman, while department Heads select committee members to ensure smooth examination procedures.

Student Eligibility for Examinations:

Students must clear all dues and present a dues clearance certificate to be eligible for exams. Carrying a valid ID card is mandatory for entry, and mobile phones are strictly prohibited in the exam hall. Students arriving 30 minutes after the exam starts will not be allowed to enter, and leaving the hall within the first hour is not permitted.

Invigilator Responsibilities:

Invigilators must report 15 minutes before the exam to collect question papers and scripts. They ensure proper seating arrangements while restricting bags, books, and notes inside the hall. Before signing answer scripts, invigilators verify ID cards, attendance, and dues clearance. Any incidents of unfair means or misconduct must be reported to the Examination Committee immediately.

Unfair Means & Punishment:

Strict disciplinary actions apply to any misconduct during exams. If a student is caught copying, their answer script will be canceled, and they may retake the course within three semesters. Bringing external scripts into the exam hall may lead to expulsion for up to three semesters. Seeking or providing help will result in warnings, and repeated offenses lead to script cancellation. Writing on walls, desks, or belongings will result in disqualification from the exam, requiring a retake in the following semester. Misbehavior or misconduct may lead to a course retake or expulsion, depending on severity.

Question Papers:

All question papers must adhere to a standard format and align with the course syllabus. If needed, multiple sets of questions may be prepared. In case of a question paper leak, the exam will be canceled and rescheduled.

Submission of Grade Sheets & Answer Scripts:

Midterm answer scripts must be shown to students within one week, and marks must be uploaded within two weeks. Final grades must be submitted to the Controller's office within four days of the exam. Faculty members who delay grade submissions will face salary deductions, while part-time faculty may face restrictions on future course assignments.

Improvement Examinations:

Students seeking to improve their grades or those with incomplete exams can apply for an Improvement Examination. Mid-Term improvement exams must be taken within 10 days after the original exam, while Final improvement exams must be taken within three weeks of result publication. Students must register through ERP, and the results must be submitted to the Controller's office within 72 hours of the exam.
