Terms of Reference

Background of the project:

BdREN is the one and only National Research and Education Network (NREN) of Bangladesh which facilitates the research and education of the country by interconnecting the research and education institutes of Bangladesh under a single optical fiber network. BdREN was implemented by University Grants Commission (UGC) as a sub-component of a project titled "Higher Education Quality Enhancement Project (HEQEP)" under Ministry of Education (MoE). All operational activities of BdREN used to be conducted under HEQEP till 31 December, 2018. After successful completion of HEQEP, all operational assets were transferred to the BdREN Trust on 31 December, 2018 in accordance with the Trust Deed. BdREN recorded these assets at "carrying value" which might not be in compliance with IAS-16. This was reported by the Auditor in its Audit Report for the financial year 2018-2019. On this backdrop in its 22nd meeting, Board of Trustee (BoT) decided to associate an organization in order to do proper valuation of all its assets. To implement that decision of BoT, BdREN desires to go for collecting proposals from qualified bidders to properly evaluate and certify its asset value in compliance with IAS-16.

Objectives of the assignment:

The purpose of preparing this tender is to assign the job to a competent bidder for providing consultancy support:

- In identification and verification of BdREN Assets
- In Coding of BdREN Assets
- In preparing relevant Tags and in attaching prepared Tags appropriately
- In evaluating Lifetime of Assets
- In Valuation of Assets after Depreciation considering their Lifetime
- In recording of Assets in the "Asset Register".

Scope: The scope of the project will be limited to all BdREN Assets mentioned in the associated site-wise chart.

Time Period: The time period of the project will be 3(Three) months in line with the attached Gantt Chart.

Activities & Time Frame:

BdREN Trust Asset Valuation includes following activities:

Asset Identification

The contractor shall survey sample sites to understand the scope of work and verify the given document (e.g. PO, contract document etc.) to identify assets and valuation thereof. Contractor shall be allowed 07 (Seven) days to complete the above task.

Asset Coding

The contractor shall propose the coding format for every individual asset.

Preparation of Asset Tags

Asset Tags need to be prepared against all assets as coded on Tags made of appropriate materials so that the longevity of the Tags and their attachment with the assets are ensured. The contractor shall propose the **tagging materials** for different categories of assets. The Tagging work will be done by BdREN on its own. The consultant/s will provide all required consultancies with regard to the activity.

Site visit, Tagging of Assets and Verification of Assets

The bidder will prepare site visit plan. Visit plan shall be submitted to BdREN for approval. Zone-wise institution list is available in Annexure-1.

BdREN shall take 60 (sixty) days for asset tagging and contractor may verify each component physically while tagging. The consultant is not required to visit all the sites rather he can visit sample sites (at least 10% of the total on each category) and give his certification on the whole. Also, the consultant may verify any site he likes to, even all the sites if he desires so, electronically through making Video Call. BdREN will try to support the consultant/s in all possible ways.

Recording and Valuation of Assets:

The successful bidder will verify the lifetime of the Assets of BdREN. BdREN will prepare the valuation sheet of assets considering depreciation accrued out of its usage. Also, all Assets need to be recorded in Asset Register both using hard and soft copy. The soft copy may be prepared using Microsoft Excel software.

Workforce

The successful bidder may deploy a team to be comprised with expert resource persons who are capable to work for successful implementation of the activities to fulfill the goal of this "Request for Proposal". Resource persons should be proficient to analyze requirements and understand the deliverables.

Data and Services to be provided by the Client:

BdREN will provide all types of asset lists to the Successful Bidder along with the list of personnel to be engaged in this project for extending help to the consultant/s.

Institutional arrangements:
